# Edward Gillett's Wholesale Trade-List

SOUTHWICK, MASS., U. S. A.

## LOCATION.

I am situated on the line of the New Haven & Northampton division of the N. Y., N. H. & H. R. R., 5 miles south of Westfield, Mass., junction of the Boston & Albany R. R.; 100 miles west of Boston, and 100 miles north of New York.

Goods by express reach New York or Boston within five hours after shipment, and the cost of carriage to all points from here is comparatively light. Freight goes through to New York without change.

## TERMS.

Prices are in American money. Six at dozen rates, 50 at 100 rates, 500 at 1,000 rates. Packing at cost.

One dollar is equal in value to a trifle more than four English shillings, four German marks, or five francs.

All bills will be due upon receipt of goods, unless by special agreements. Unknown parties should give good references.

Remit by draft on New York, or by Post Office Order on Southwick, Mass. *Foreign Remittances by International Post Office Orders on Westfield, Mass.*

The packing season commences as soon as the plants can be got at in spring, about April 10, and lasts about six weeks, and in autumn as soon as the plants are ripe, mostly from September until December.

### NAPOLÉON III—A HARDY CARNATION

of healthy and vigorous growth, forming fine large clumps, the double bright crimson fragrant flowers supported on straight, firm stems, flowering through the season. 1 yr., 75 cts. per dozen, \$4 per 100.

### "Miellez's Revelation" in Lily-of-the-Valley.

It is of extraordinary size and vigor, of the most exquisite fragrance, and does well under all conditions and in all sorts of soils, growing just as well in full sun as partial shade. It is extremely hardy, and while not increasing quite as fast as the common kinds, is still of good increase. It is well to cover it in December with a good coat of barnyard manure—cow or horse—green is just as good as old. Leave it in the spring to serve as mulch. The Massachusetts Horticultural Society awarded it a "First Class Certificate of Merit" on May 22, 1897. \$1 per dozen, \$4 per 100.

## FERNS.

The Ferns of New England are among the most charming of our *hardy perennials*. They are so easily grown that every park or yard may have them. If you wish to beautify a dark nook shut in by buildings or trees where flowers will not thrive, try a few ferns, and note the change. You can select from my list of about 40 kinds those suited for almost any situation that will sustain plant life.

| 12 <i>Cheilanthes vestata</i> ,   | 12 <i>Woodsia ilvensis</i> .   |

One-Half Any One of the Above Collections for \$1.75.

You will notice that some kinds are named in more than one collection. Such seem to thrive equally well in the localities named.
